

HEALTH REPORT FOR PETERSBURG

Fifty-Six Deaths During Month
Ending January 26, and
Fifty Births.

FORMER MERCHANT DEAD

E. M. Allen Passes Away in
New York Hospital—Other
News Notes.

Times-Dispatch Bureau,
3 Bollingbrook Street,
Telephone 1483.
Petersburg, Va., January 28.
During the month ending January 26, as shown by the reports of Dr. R. A. Martin, the health officer, there were fifty-six deaths in Petersburg, including two non-residents—whites, 20; colored, 36. The high rate among the colored race, though forming the lesser portion of the population, continues noticeable. Of the decedents nine were under five years of age, and three were over eighty years. Among the causes of death were pneumonia, 8; tuberculosis, 3; suffocation, 1; fracture of skull, 1.

Eleven deaths were certified by the coroner; fifteen bodies were brought to the city and eleven were shipped away for burial. The health officer makes the statement that not a single house in the city is quarantined on account of communicable diseases.

Births Reported.

During the month ending January 26, fifty births were registered with the health department—whites, 21; colored, 27.

Death of Former Merchant.

E. M. Allen, a former well-known merchant and citizen of Petersburg, died early this morning in the General Hospital in New York City, following a surgical operation performed with the hope of saving his life. Mr. Allen was a member of the wholesale grocery firm of Allen & Prichard, which did business for a long time in Petersburg. On the dissolution of the firm, many years ago, Mr. Allen went to New York, where he became connected with the department store, with which he remained until his death. Twice a year it was his custom to visit his old home, relatives and friends in Petersburg, and his last visit was only a few weeks ago. He was a man of quiet and business habits and enjoyed the respect of all who knew him. The body will be brought to Petersburg tomorrow for burial. Mr. Allen was survived by his wife, one son, Andrew Allen, of New York, and four daughters, three of them married and one single—Miss Virginia Allen, living with her mother in this city. His other daughters are Mrs. Thomas A. Dimes, of Colorado; Mrs. Anthony Fidel, of Colorado; and Mrs. D. T. White, of Baltimore. Mr. Allen was a gallant Confederate soldier and for some time was a prisoner at Point Lookout.

Body Recovered and Buried.

The body of Cecil Turner, of Chesterfield County, who was drowned in the Appomattox River, near City Point, on the 24th of December, and which was recovered last evening near the mouth of the river, was brought to this city this afternoon and buried in Bluff Cemetery. He was the son of H. J. Turner, an English farmer, living near Bermuda Hundred, in Chesterfield County. Mr. Turner was on a small rowboat with a companion to visit City Point, the boat was accidentally overturned and the men were thrown in the water. The companion after vain effort to save Mr. Turner, swam ashore. Mr. Turner was drowned, and days of search failed to discover the body. Yesterday it arose to the surface and was recovered.

Contract Awarded.

The Board of Supervisors of Dinwiddie has awarded the contract for the erection of the new county jail to J. B. Valentine, of the firm of J. B. Valentine & Co., of Pittsburgh, Pa. The new jail will cost about \$50,000, and will be an up-to-date structure. For some time past the old jail building has not been used, the Petersburg jail having been adopted for housing the county prisoners.

Address by Suffragists.

Miss Mary Johnston and Mrs. B. B. Valentine addressed an audience to-night of fully 600 people—all that could be crowded in the large auditorium of the Lee public school. The audience, composed in large part of women, was in full sympathy with the speakers and gave them generous applause. It was a suffrage meeting, and "Equal Suffrage" was the subject of both addresses. Miss Johnston spoke for nearly two hours, reviewing the progress of the great movement, the reasons why women should be enfranchised, the needs for the uplifting of her condition, socially, humanely and intellectually. She characterized the movement as the living issue of today, to which men might wisely adapt themselves.

Personal and Otherwise.

Robert W. Pugh, a well-known young business citizen, went out to Wilson, N. C., yesterday, where to-day he was to be married to Miss Fannie Eaton of that city. He was accompanied by

READ THIS OFFER

We Guarantee Parian Sage to Cure Dandruff, Stop Falling Hair or Itching of the Scalp, in Two Weeks, or Money Back.—Giroux Mfg. Co., Sole American Makers of Parian Sage.

The above is an offer we are most proud to make. It is an offer that no man or woman need be ashamed to accept. Parian Sage is the quickest acting and most rejuvenating hair restorer in the world.

Its magical qualities have made it famous wherever it has been introduced. It is the only hair restorer sold with an absolute guarantee to cure dandruff, stop falling hair or itching of the scalp. It cures dandruff by killing the germs, and it kills them so promptly that the most skeptical give it their warmest praise.

But Parian Sage is more than a cure for dandruff—it will make hair grow on any head where the hair bulbs are not altogether dead.

We want every reader of the Richmond Daily Times-Dispatch to know that Parian Sage is the most delightful hair dressing in the world. It is so pleasant to use, and its effect is so invigorating and refreshing, that it pleases everybody.

And to the ladies we wish to emphasize the fact that Parian Sage is the only hair tonic in the world guaranteed to make the hair grow luxuriant, soft and beautiful.

The girl with the Auburn hair is on the outside package of every bottle of Parian Sage. Sold by Truitt Drug Co., and at drug stores and toilet counters everywhere for 30 cents a large bottle.—Advertisement.

You Should Enjoy Your Meals

One of the Most Important Questions
to Consider in the Search for
Happiness and Health.

If your stomach cannot digest your food, what will? Where's the relief? The answer is in Stuart's Dyspepsia Tablets, because, as all stomach troubles arise from indigestion, and because one ingredient of Stuart's Dyspepsia Tablets is able to thoroughly and completely digest 3,000 grains of food, doesn't it stand to reason that these tablets are going to digest all the food and whatever food you put into your stomach?

You Can Eat With the Appetite of a
Lusty Youngster if You Help
Your Stomach.

Science nowadays can digest food without having it enter the stomach at all. And Stuart's Dyspepsia Tablets are the result of this scientific discovery. They digest, and digest thoroughly and well, anything and everything you eat. "Are you getting out of life all the pleasure and the health you are entitled to?" If not, why not?

No, if matter whether every organ and member of your body is in a sound state of health and strength, if your stomach is in any way disordered, you are not going to be "yourself." You are going to be a worried, out-of-sorts, nervous or sullen individual, whose actions will reflect your condition inside, and people will naturally avoid you.

So, if your stomach refuses to work, or can't work, and you suffer from eruptions, blot, break, fermentation, biliousness, sour stomach, heartburn, irritation, indigestion or dyspepsia of whatever form, just take one or two of Stuart's Dyspepsia Tablets and see the difference. It doesn't cost you much to prove it. Then you can eat all you want, what you want, whenever you want, if you use these tablets, and you can look the whole world in the face with a beaming eye and you will have a cheerful spirit, a pleasant face, a vigorous body and a clear mind and memory, and everything will look and taste delicious to you. That's life!

Get 50-cent box of Stuart's Dyspepsia Tablets at any drug store.—Advertisement.

his sister, Miss Fannie Pugh.

The Norfolk and Petersburg steamboat line was withdrawn from the James River service yesterday, because of insufficient support.

Burnett, Brenegan and Blackstone have renewed contracts with the Petersburg baseball team for the coming season. Some of the other last year players are "holding out" for better pay. They will be heard from later. Meanwhile Manager Bush has signed up several promising youngsters for try-outs.

The Ladies' Memorial Association has received several designs for the proposed stone arch to be erected in Bluff Cemetery in honor of the Confederate dead, but have made no selection.

Miss Emma Hunt, French and German teacher in the high school, was yesterday presented with a handsome umbrella by the pupils of her class as a token of their love. Miss Hunt will leave for Columbia, N. Y., the first of next month.

Miss Marie Cook, employed at the factory of the British-American Tobacco Company, lost one of her fingers yesterday by having it caught in the machine at which she was at work.

Miss Bessie Holt, of Matine and Francis, East of the tobacco store, were operated on for appendicitis at the Petersburg Hospital yesterday, and both are doing well.

Sales of tobacco to-day were 100,000 pounds at prices ranging from \$5 to \$5 per hundred pounds.

FERGUSON LEFT IN FEEL ALONE

All Other Candidates for Post-
mastership at Appomattox
Retire in His Favor.

(Special to The Times-Dispatch.)

Appomattox, Va., January 28.—The several candidates for the position of postmaster at this place have conceded the position to Leslie Ferguson, a recent law graduate of the University of Virginia, and who has the endorsement of Congressman H. D. Flood.

Robert Irby, who has been connected with the post-office here for twenty-four years, will retire April 5. Since his connection with the office he has started the first rural route in the county, started the Postal Savings Bank, and now has sent the first parcel post ever sent in the county. The office has grown to such an extent that it will pay his successor \$1,000 and furnish one clerk.

The midwinter examinations of the Appomattox Agricultural School commenced to-day, and will continue to February 3, when the second term begins. The graduates of this year are Misses Susan Hancock, Alice Drinkard, Kathleen Drinkard and Ola Sears, and Dan Moses, J. W. Flood and Ashton Harrison, all of whom expect either to attend a higher institution of learning or to enter the service.

Charles C. Wiley has recently been notified that his school has been advanced to the advanced standing of accredited high schools in Virginia, and that the work done will be as good as that of any high school in the State.

Heavy rains have prevailed here practically "stock" and the farmers have practically "stock" and are rapidly bringing it to the market, and are getting prices consistent with the quality of the tobacco.

Hon. T. J. Stratton, who has been for several years the representative from this county in the Legislature, will not again be a candidate for reelection. Mr. Stratton was opposed last time by J. W. Cawthorn, who is the president of the farmers' union, and this time Mr. Cawthorn will probably have the aid to himself, though it is reported that Mr. Evans Hunter, now a senior law student at Washington and Lee University, will probably oppose him.

News reached here last week from Jerry H. Burke, son of Mr. and Mrs. B. H. Burke, had won the orator's medal at a recent contest held there. Mr. Burke is a graduate of the Appomattox Agricultural High School.

TOO MUCH CREDIT FOR CASH IN HAND

Former State Treasurer of Penn-
sylvania Says Panic Is
Threatened.

HE RECOMMENDS SOLUTION

Farmers' Union Delegation
Wants System of Incorporated
Clearing Houses.

Washington, January 28.—The issue of paper legal tenders, based on government, State and municipal bonds and backed by gold reserve of at least 20 per cent, was recommended as a solution of the currency problem by W. H. Berry, former State Treasurer of Pennsylvania, on the stand to-day before the Currency Committee of the House.

Mr. Berry told the committee that the evil of the present system was an insufficient supply of legal tender reserve to support the extended credit demanded by business interests of the country.

"The banking laws are responsible for the accumulation of money in the reserve cities," he said. "The law allowing the accumulation of millions of money in these reserve cities is responsible. A lack of cash in reserve restricts the banks in the credit they can allow, and this inevitably results in a discrimination as to borrowers. So long as this situation obtains, there will be a money trust."

A chart produced by Mr. Berry purported to show that panics followed an expansion of credit to a point where it was beyond the support of the available cash reserves.

"That is the situation now," he continued. "The credits granted have been extended to a point where the reserves are but 2 per cent on the outstanding obligations of the banks. Unless these reserves are extended in some way, a panic inevitably will follow. That 2 per cent was about the breaking point of 1907, and a panic is now threatened. We have too much credit for the cash in hand and too little credit for the needs of the country."

Mr. Berry proposed making the bank note circulation legal tender, and forcing banks to surrender bonds upon which they issued these notes. Under examination by the committee he said he believed that a gold reserve of at least 20 per cent of the current legal tender would support the issue.

Mr. Berry declared himself opposed to the Aldrich-currency plan, insisting that the present currency system is responsible for a "money trust," "stock exchange gambling," and "the unemployment that follows restricted industrial activity."

C. S. Barrett, of Union City, Ga., president of the National Farmers' Union, an organization with branches in twenty-one States, and 3,000,000 members, appeared heading a delegation including A. C. Davis, Rogers, Ark.; Peter Radford, Fort Worth, Tex.; President Texas State Union, R. L. Barnett, Paudah, Ky.; secretary-treasurer, Kentucky State Union, A. F. Swift, Baker, Ore.; Oregon State Union, and Prof. T. J. Brooks, professor of markets and economics, Mississippi State Agricultural and Mechanical College.

Professor Brooks, spokesman for the farmers union delegation, said the farmers objected to the present monetary system, because, he said, it led to concentration and undue speculation. He suggested a system of incorporated clearing houses.

Farmers need long term loans, Prof. Brooks said, in order that they may become owners instead of tenants. To meet this need, he proposed that postal savings banks deposits be made available for loans on farms lands, and outlined a system of land banks to be operated entirely separate from commercial banks.

WOMAN'S STORY MADE PUBLIC

Mrs. Moncrief Didn't Consider It
Secret. Thought Friends
Should Know. Read
Her Statement

Belton, Tex.—Mrs. Ethel Moncrief, of this place, says: "I suffered with a complaint peculiar to women, and, although I called in the doctors, they failed to do me any good.

Then, I began to take Cardui, the woman's tonic.

From the first dose I could feel results, and, in a short time, I was relieved of all my dreadful suffering.

My friends were surprised to see the results I obtained from the use of Cardui. I just couldn't help telling them. It built up my system wonderfully.

I do not want to be without Cardui in my house, as long as I can obtain it. It is a true relief for womanly troubles. I can't praise it too highly."

In the past half century thousands of ladies have written, like Mrs. Moncrief, to tell of the benefit received from the use of Cardui.

Such testimony, from earnest women, surely indicates the merit of this woman's remedy.

Cardui contains pure, harmless, vegetable ingredients, which act in a gentle way on all the weakened womanly organs.

It cannot do you harm, and is almost sure to be the very medicine you need. It's good for young or old.

Please give Cardui a trial.

Avoid dangers of cold floors!

The world's leading public-health official writes that most of the colds, coughs, neuralgia and rheumatism are due to rooms equipped with old-fashioned heating, where on windy days there is often found a difference of ten degrees between the air at the floor level as compared with the mid-center or breathing plane of the room. This temperature difference along the floor level chills the feet and legs, producing faulty circulation—the work of the heart is thus "short-circuited" and one's vitality is severely taxed.

AMERICAN & IDEAL RADIATORS & BOILERS

ing by IDEAL Boilers and AMERICAN Radiators there are no cold floors, drafts and chill spots and the air is not robbed of its purity and vitality by escaping ash-dust and coal-gases. Look at the official health maps of any big city, which will show you how free from deaths due to neuralgia, rheumatism, pneumonia, coughs and consumption are those districts where practically all the best homes are warmed and ventilated by IDEAL Boilers and AMERICAN Radiators.

The Indian huddled over his campfire is one of the worst victims of pneumonia, rheumatism, consumption and other winter maladies. So, too, the farmers (according to Government Statistics), with their old-fashioned heating, show a far bigger death rate than do city people from the ravages of these winter diseases.

IDEAL Boilers and AMERICAN Radiators are used to warm and ventilate the leading hotels, sanitariums and baths at Aix-les-Bains, Nice, Mentone, The Riviera, Carlsbad, Marienbad, Cairo, Simla, Japan, Florida, Southern California, etc. These facts should point the right heating way to you!

IDEAL Boilers and AMERICAN Radiators are now put in old or new cottages, mansions, stores, schools, churches, etc. without disturbing occupants or tearing up floors or partitions. Need no repairs. Will outwear the building. Their big savings in fuel, labor and absence of repairs soon repay their cost. Write, phone or call to-day for free book, "Ideal Heating."

We also supply the ARCO WAND Vacuum Cleaner, which has iron suction pipes running to various floors of houses, flats, schools, churches, hotels, hospitals, banks, theaters, etc. A turn of an electric button in any room starts the machine in motion and with the magic ARCO WAND and a light-weight dainty hose ALL the dirt, dust, cobwebs, lint, threads, moths, insect eggs, etc., are drawn with lightning rapidity down the iron piping into the big, sealed dust-bucket in cellar. Costs little monthly for electricity to run. No dragging around a clumsy, inefficient portable vacuum cleaner—instead, you have a correct, enduring outfit that is part of the building—like radiator heating. Ask for catalog.

No exclusive agents.
Sold by all dealers.

20 YEARS' TIPS, \$18,000.

Chicago Drummer, on Retiring, Says He Gave Small Fortune.

Chicago, January 28.—Tips to porters, bell boys, etc., \$18,000. If any traveling salesman should have the audacity to place this item to expense account, his employers doubtless would take immediate steps to put him into a padded cell.

But that is exactly the sum exacted from one traveling salesman by the industrious collectors of gratuities during the period he was on the road. It took the hotel underlings, railway help and barber shop employees twenty years to squeeze him for this fortune, but to-day they have the money and the man.

Mr. Keyser had noticed that the

one of the fine herds of cows on his farm below Pottstown apparently failed to give any more milk, several days ago.

John Keyser, a Norristown hotel-keeper, was so much mystified that he came up personally to investigate. He was particularly interested, because he was keeping close tabs on the milk score of his stock, with the expectation of making a record.

Going to the yard near the barn, Keyser saw the most unusual sight he ever witnessed. There was his cow nursing two little pigs, and when he made an effort to drive them away the cow got obstreperous and turned on him.

Mr. Keyser had noticed that the
